

Advanced Scheduler

What is the Advanced Scheduler?

The Advanced Scheduler provides organizations with the unique opportunity for priority, in-store vaccine scheduling. With this offering, organizations will receive a QR code to distribute to participants who may then schedule vaccine appointments at the most convenient time and CVS Pharmacy location. It is a great option for organizations that cannot meet the vaccine clinic requirements.

Priority Scheduling

QR Code allows participants to gain 28-day access to the in-store scheduler, 14-days prior to the general public. Provides group scheduling, allowing up to 4 people to be scheduled at the same time.

In-Store Experience

Participants may choose the most convenient appointment time at a CVS Pharmacy of their choice. Can pick up prescriptions and shop in one trip.

Vaccine Voucher Program

Organization may choose to combine the Advanced Scheduler offering with the Vaccine Voucher program to cover vaccines for participants.

Program Benefits

Scheduling 7-days a week at most 9,000+ CVS Pharmacy locations, which include dedicated in-store vaccination hours and additional staffing.

No contract requirement, unless combining the Advanced Scheduler program with the Vaccine Voucher program. No minimum vaccine requirements and no additional fees.

Excellent option for organizations with hybrid work-environments or for those who cannot commit to the Vaccine Clinic program requirements, including a 48-vaccine minimum and/or payment of unused capacity fees.

To use the Advanced Scheduler program, use the QR code to the right and share the following page with your eligible participants.

For any questions, reach out to VaccineClinics@CVSHealth.com

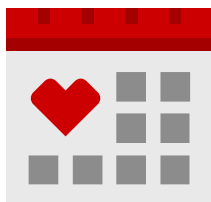

Advanced Scheduler

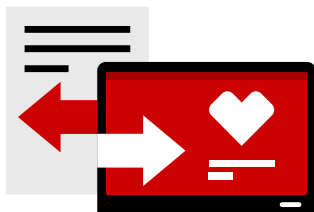

QR Code

Use the provided QR code to schedule your vaccine appointment at a CVS pharmacy of your choice!

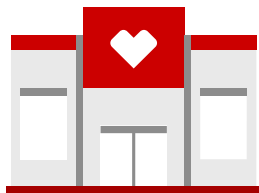

Priority Scheduling

Provides 28-day access to the in-store scheduler, 14 days prior to the general public. Appointments available 7-days a week at most 9,000+ locations, which include dedicated in-store vaccination hours and additional staffing.

Group Scheduling

Allows for up to 4 people to be scheduled for an appointment at the same time. Great time saver for families or participants who need to book for multiple people!

In-Store Experience

Participants arrive at their pharmacy, check-in for their appointment, and receive their vaccines. Participants can also pick up prescriptions and shop in one convenient trip!
